WORK EXPERIENCE

University of Tampa
Lead Lifeguard Instructor

2/1/2023 - Prese
Tampa F

- Instructed and certified individuals in lifeguard training courses to the Red Cross standard, ensuring that they mastered essential water safety techniques, rescue procedures, and emergency response skills.
- Conducted regular evaluations and assessments of lifeguard trainees, providing constructive feedback and implementing training sessions to enhance their proficiency in aquatic lifesaving techniques.
- Developed strong leadership skills by training and mentoring new lifeguards, effectively communicating life-saving techniques, and ensuring a high standard of safety and preparedness in aquatic environments.

University of Tampa
Research Assistant

8/1/2022 - 8/1/202
Tampa, F

- Contributed to the development and deployment of a Virtual Reality game focused on educating users about the UN's Convention of the Rights of the Child.
- Utilized Unity to develop for MetaQuest and Blender for 3D modeling.
- Developed solutions to project risks and issues, meeting quality and timeline goals.

PROJECTS

ResuBuild
View Project

- A dynamic resume builder that provides real-time previews, allowing users to see their resume as they create it.
- Leverages OpenAI's API to generate tailored experience descriptions based on the entered job title.
- The backend functionality enables users to sign up, save multiple resumes, and load a selected resume seamlessly.
- This app is continuously updated and scaled alongside my resume, ensuring that ResuBuild evolves as my professional experience grows.

Glazer Children's Museum
View Project

- Assigned to a software team to develop a web application for a client aimed at educating parents on how their children learn while interacting with the exhibits.
- Participated in weekly Agile sprint meetings, actively engaged in code reviews, and collaborated with the team to enhance application functionality and user experience.
- Developed front-end and back-end components using Django and MySQL, enabling support for multiple user roles, including admin.
- Tested and debugged application components to ensure optimal performance, reliability, and stability in production environments.
